Nann Ei Ei Hlaing

has successfully completed the online Specialization

C# Console & Windows Forms with Entity Framework

Congratulations on successfully completing the C# Console & Windows Forms with Entity Framework specialization! This certificate recognizes your ability to develop desktop applications using C# and Windows Forms, integrate databases with Entity Framework, and manage user accounts and application data. Through hands-on projects and in-depth tutorials, you've mastered the skills to create both basic and advanced applications, work with SQL Server, and employ best practices for data management and debugging. This achievement demonstrates your proficiency in building interactive, functional applications and is a significant milestone in your software development journey.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
